INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Metropolitan Education District
San Jose, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Metropolitan Education District (the District) as of and for the year ended June 30, 2019; and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITORS' REPORT

(Continued)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the budgetary comparison schedules, and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information on pages 66 to 69 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information on pages 67 to 69 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

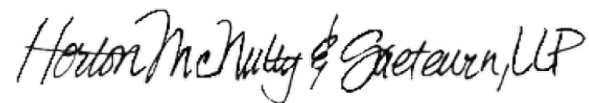

INDEPENDENT AUDITORS' REPORT

(Continued)

The local educational agency organization structure has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Chico, California

FINANCIAL SECTION

Required Supplementary Information

INTRODUCTION

An overview of the Metropolitan Education District's (the District) financial activities for the fiscal year ended June 30, 2019, is provided in this discussion and analysis of the District's financial performance. This management's discussion and analysis should be read in conjunction with the District's financial statements (including notes and supplementary information).

USING THIS ANNUAL REPORT

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. Combined, these three parts provide a comprehensive overview of the District. The basic financial statements include two kinds of financial statements that present different views of the District:

- The first two financial statements are *government-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining financial statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide financial statements. The District maintains governmental funds and fiduciary funds as follows:
 - *Governmental Funds:* Financial statements provide information on how basic services like regular and special education were financed in the short-term as well as what remains for future spending.
 - *Fiduciary Funds:* Financial statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

FINANCIAL HIGHLIGHTS

Overall revenues were \$22,596,484. Overall revenues exceeded expenses by \$2,887,900.

Total net position in governmental funds was \$30,525,739, an increase of 10.4% from the previous year. The General Fund reported a total fund balance of \$10,924,286.

During the spring of 2019, the District negotiated a revised/updated business/funding agreement with the JPA member Districts which resulted in more stabilized and predictable enrollment and funding per student.

General fund enrollment for 2018/19 was 1,314; funding per student was \$6,067. General fund student enrollment for funding purposes is expected to remain stable in the near-term at approximately 1,372. Funding per student for 2019/20 is \$6,260 and is expected to increase/track the state funded COLA over the near-term.

OVERVIEW OF THE FINANCIAL STATEMENTS

Government-Wide Financial Statements

The government-wide financial statements provide information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets owned less the liabilities owed. The statement of activities includes all of the current year's revenues and expenses regardless of when cash is received or paid. The two financial statements report the District's net position and how it has changed.

Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health. Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall health of the District you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

The statement of net position and the statement of activities divide the District into two kinds of activities:

Governmental Activities: Represent the basic services provided by the District, such as regular and special education, administration, and transportation.

Business-Type Activities: Represent services for which the District charges fees to help cover the cost of certain services beyond the scope of normal district operations. The District does not have any of these types of activities at this time.

Metropolitan Education District
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Fund Financial Statements

More detailed information about the District's most significant funds – not the District as a whole – is provided in the fund financial statements. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by bond covenants and by state law.
- Other funds are established by the District to control and manage money for particular purposes (such as repaying its long-term debts). Other funds may also show proper usage of certain revenues (such as federal grants).

The District has two types of funds:

Governmental Funds

Most of the District's basic services are included in governmental funds, which generally focus on:

- How cash and other financial assets can readily be converted to cash flow (in and out).
- The balances left at year end that are available for spending.

A detailed short-term view is provided by the governmental fund financial statements. These help determine whether there are more or fewer financial resources that can be spent in the near future for financing the District's programs. Because this information does not encompass the additional long-term focus of the government-wide financial statements, additional information is provided at the bottom of the governmental fund financial statements that explains the differences (or relationships) between them.

Fiduciary Funds

For assets that belong to others, such as the student activities funds, the District acts as the trustee, or fiduciary. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. A separate statement of fiduciary net position reports the District's fiduciary activities. These activities are excluded from the government-wide financial statements, as the assets cannot be used by the District to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

As shown in the table on the following page, the District's net position as of June 30, 2019, was \$30,525,739. Of this amount, a negative \$2,209,781 was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limits the Board of Trustees' ability to use the net position for day-to-day operations. All District net position is the result of governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Continued)

CHANGES IN NET POSITION

The following table summarizes the change in net position for the District.

Total revenues were \$22,596,484. Interagency revenue accounted for most of the District's revenue, representing approximately 62.3% of all revenue. Another 30.5% came from operating grants and contributions, and the remaining 7.2% came from interest and investment earnings, other revenue, and federal and state aid for specific programs and projects.

The total cost of all programs and services increased .7% to \$19,708,584. Revenues exceeded the District's expenses for the year by \$2,887,900. The District's expenses are primarily related to educating and caring for students (82.1%). Maintenance and administration account for 17.7% of the total costs. The remaining .2% is for interest and other expenses.

Metropolitan Education District
MANAGEMENT’S DISCUSSION AND ANALYSIS
(Continued)

FINANCIAL ANALYSIS OF THE DISTRICT’S FUNDS

Governmental Funds

The District’s governmental funds reported a combined fund balance of \$15,821,868, an increase of \$4,462,987 from the previous year. Following is a summary of the District’s fund balances.

June 30	Fund Balance		Increase (Decrease)
	2018	2019	
General	\$ 7,230,375	\$ 10,924,286	\$ 3,693,911
Adult Education	1,216,577	1,963,477	746,900
Deferred Maintenance	13,662	13,940	278
Building	1,551,521	1,548,953	(2,568)
Special Reserve Capital Projects	976,055	1,000,834	24,779
County School Facilities	370,691	370,378	(313)
Totals	\$ 11,358,881	\$ 15,821,868	\$ 4,462,987

The increase in the General Fund is due primarily to a reduction of approximately 11 FTEs and correction of over-budgeted expenditure lines.

The increase in the Adult Education Fund is mainly due to a correction of over-budgeted expenditure lines; primarily in salary and benefits.

The increase in the Special Reserve Capital Projects Fund is due to increased revenues from commercial property leases.

General Fund Budgetary Highlights

During the course of the year, the District revises its budget as information is available which results in changes in revenues and expenditures. A schedule showing the District’s original and final budget amounts compared with the amounts actually paid and received for the General Fund is provided in our annual report as required supplementary information.

The District’s June 2018 adopted budget projected that General Fund expenditures and other financing uses would exceed revenues and other financing sources by \$511,977. However, upon closing the books for 2018/19 actual revenues exceeded expenditures by \$3,693,911 yielding an increase in ending fund balance of \$5,352,670. This significant increase was due primarily to:

- An unexpected one-time increase in Apprenticeship Training Program revenue of \$2.26 million
- A reduction in salary and benefit expenditures of approximately \$1.37 million
- A reduction in books and supplies expenditures of approximately \$224,000
- A reduction in services and operating expenditures of approximately \$686,000

 MANAGEMENT'S DISCUSSION AND ANALYSIS
 (Continued)

CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

Capital Assets

The District invested \$56,855,639 in capital assets including buildings, site improvements, and equipment during 2018-19.

June 30	<u>Governmental Activities</u>		Percentage Change 2018-19
	2018	2019	
Land	\$ 9,683,028	\$ 9,683,028	0.0%
Buildings	38,829,141	38,856,633	0.1%
Site improvements	2,144,473	2,218,811	3.5%
Equipment	5,065,214	5,331,359	5.3%
Construction in progress	456,035	765,808	67.9%
Total Capital Assets	\$ 56,177,891	\$ 56,855,639	1.2%

Long-Term Debt

At year end, the District had \$18,063,883 in outstanding long-term debt. Outstanding long-term debt decreased by 4.0% primarily due to scheduled payments on the early retirement incentives.

June 30	<u>Governmental Activities</u>		Percentage Change 2018-19
	2018	2019	
Compensated absences	\$ 205,345	\$ 139,057	-32.3%

Total Long-Term Debt	\$ 18,807,766	\$ 18,063,883	-4.0%

Metropolitan Education District
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were being prepared and audited, the District was not aware of any significant circumstances which could significantly affect its financial health in the near-term. Although the cost of living and doing business continues to rise, revenues are expected to remain relatively stable and/or increase along with the state funded COLA over time.

Due to the implementation of the Local Control Funding Formula (LCFF), funding is dependent upon JPA member districts' agreement to pass-through funds to the District to sustain programs and operations. However, as previously stated, during the spring of 2019, the District negotiated a revised/updated funding agreement with the JPA member Districts which resulted in more stabilized and predictable enrollment and funding per student. General fund student enrollment for 2018/19 was 1,314; funding per student was \$6,067. General fund student enrollment for funding purposes is expected to remain stable in the near-term at approximately 1,372. Funding per student for 2019/20 is \$6,260 and is expected to increase/track the state funded COLA over the near-term.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, parents, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. RECONCILIATION OF GOVERNMENTAL FUND BALANCES TO GOVERNMENT-WIDE NET POSITION

June 30, 2019

Total Fund Balances - Governmental Funds \$ 15,821,868

Amounts reported for assets, deferred outflows of resources, liabilities, and deferred inflows of resources for governmental activities in the statement of net position are different from amounts reported in governmental funds because:

Capital assets: In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets and accumulated depreciation.

Capital assets at historical cost	\$ 56,855,639
Accumulated depreciation	(25,860,279)

Total Capital Assets - Net 30,995,360

Long-term liabilities: In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

Net pension liability	13,610,401
Total OPEB liability	3,314,425
Compensated absences	139,057
Qualified Zone Academy Bonds	1,000,000

Total Long-Term Liabilities (18,063,883)

Deferred outflows and inflows of resources relating to pensions: In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported:

Deferred outflows of resources relating to pensions	4,014,119
Deferred inflows of resources relating to pensions	(2,114,451)

Deferred outflows and inflows of resources relating to other postemployment benefits (OPEB): In governmental funds, deferred outflows and inflows of resources relating to OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to OPEB are reported:

Deferred outflows of resources relating to OPEB	160,878
Deferred inflows of resources relating to OPEB	(288,152)

Total Net Position - Governmental Activities \$ 30,525,739

The accompanying notes are an integral part of these financial statements.

Metropolitan Education District

RECONCILIATION OF NET CHANGE IN FUND BALANCES TO CHANGE IN NET POSITION

Year Ended June 30, 2019

Total Net Change in Fund Balances - Governmental Funds \$ 4,462,987

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

Capital outlay: In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

Expenditures for capital outlay	\$ 677,748
Depreciation expense	(1,912,364)

Net Capital Outlay (1,234,616)

Compensated absences: In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was: 66,288

Pensions: In government funds, pension costs are recognized when employer contributions are made. In the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual basis pension costs and actual employer contributions was: (466,978)

Other postemployment benefits (OPEB): In governmental funds, OPEB expenses are recognized when employer OPEB contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. This year, the difference between OPEB expenses and actual employer OPEB contributions was: (168,115)

Other liabilities not normally liquidated with current financial resources: In the government-wide financial statements, expenses must be accrued in connection with any liabilities incurred during the period that are not expected to be liquidated with current financial resources, in addition to compensated absences and long-term debt. Examples include special termination benefits such as retirement incentives financed over time, and structured legal settlements. This year, expenses incurred for early retirement incentives were: 228,334

Change in Net Position of Governmental Activities \$ 2,887,900

The accompanying notes are an integral part of these financial statements.

ASSETS		
Cash and investments	\$	369,121
Accounts receivable		2,051
TOTAL ASSETS	\$	371,172
LIABILITIES		
Due to student groups	\$	371,172

The accompanying notes are an integral part of these financial statements.

1. SIGNIFICANT ACCOUNTING POLICIES

The District is governed by an elected six-member board. The District operates one high school program and one adult education program in San Jose, California.

The District accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's, *California School Accounting Manual*. The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies established in GAAP, and used by the District, are discussed below.

Implementation of New Accounting Standard

The District adopted the provisions of GASB Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements* for fiscal year ended June 30, 2019. This statement improves the information disclosed in the notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

Financial Reporting Entity

The District was organized under a Joint Powers Authority by six other local school districts to provide vocational and adult education programs for the high school students and adults in their geographic areas. The six districts are Campbell Union High School District, East Side Union High School District, Los Gatos-Saratoga Joint Union High School District, Milpitas Unified School District, San Jose Unified School District, and Santa Clara Unified School District.

A reporting entity is comprised of the primary government and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, adult education, and student-related activities of the District.

Basis of Presentation

Government-Wide Financial Statements The statement of net position and statement of activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed, in whole or in part, by fees charged to external parties for goods or services.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function; and, therefore, are clearly identifiable to a particular function. Program revenues include: (a) fees, fines, and charges paid by recipients of goods or services offered by the major programs; and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and unrestricted grants and contributions, are presented as general revenues.

Fund Financial Statements Fund financial statements are organized by funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type; and

Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.

The funds of the District are described below.

Governmental Funds

General Fund The general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds Funds that are established to account for the proceeds from specific resources that are restricted to the financing of particular activities.

1. Adult Education Fund is used to account separately for federal, state, and local revenues, and the expenditure of those funds, that are restricted or committed for adult education programs (*California Education Code*, Sections 52616[b] and 52501.5[a]).
2. Deferred Maintenance Fund is used to account separately for revenues that are restricted or committed for deferred maintenance purposes. Expenditures in this fund are used for major repairs or replacements of plumbing, heating, air-conditioning, electrical, roofing, and floor systems; and exterior and interior painting of school buildings.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Capital Projects Funds Funds that are established to account for financial resources to be used for the acquisition or construction of major capital facilities.

1. Building Fund exists primarily to account separately for proceeds from the sale of bonds (*California Education Code*, Section 15146).
2. County Schools Facilities Fund is used to receive apportionments from the State School Facilities Fund authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*California Education Code*, Section 17070.10).
3. Special Reserve Fund is used to account for resources designated for capital outlay projects (*California Education Code*, Section 42840).

Fiduciary Funds

Agency Funds Funds that are used to account for assets of others for whom the District acts as an agent.

1. Student Body Fund is used to account for the transactions of the associated student body in raising and expending money to promote the general welfare, morale, and educational experiences of the student body (*California Education Code*, Sections 48930-48938).

Major and Nonmajor Funds

The funds are further classified as major or nonmajor as follows:

Major Governmental Funds:

- General Fund
- Adult Education Fund

Nonmajor Governmental Funds:

- Deferred Maintenance Fund
- Building Fund
- County School Facilities Fund
- Special Reserve Capital Projects Fund

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Measurement Focus On the government-wide statement of net position and the statement of activities, both governmental and business-like activities are presented using the “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Fund equity is classified as net position.

In the fund financial statements, governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting In the government-wide statement of net position and statement of activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within one year. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District’s Governing Board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District’s Governing Board satisfied these requirements.

These budgets are revised by the District’s Governing Board and District Superintendent during the year to give consideration to unanticipated income and expenditures. The original and final revised budgets are presented for the General Fund and each major special revenue fund as required supplementary information.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures legally cannot exceed appropriations by major object account.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash, Cash Equivalents, and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash and cash equivalents are combined with investments and displayed as cash and investments.

Highly liquid market investments with maturities of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value. Market value is used as fair value for those securities for which market quotations are readily available.

In accordance with *California Education Code*, Section 41001, the District maintains substantially all of its cash in the Santa Clara County Treasury (the County) as part of the common investment pool. The County is restricted by *California Government Code*, Section 53635 pursuant to Section 53601, to invest in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. Investments in the County pool are valued using the amortized cost method (which approximates fair value) and include accrued interest. The pool has deposits and investments with a weighted-average maturity of more than one year. As of June 30, 2019, the fair value of the County pool was 99.79% of the carrying value and is deemed to not represent a material difference. Information regarding the amount of dollars invested in derivatives with the County was not available. The County investment pool is subject to regulatory oversight by the Treasury Oversight Committee, as required by *California Government Code*, Section 27130. The District is considered to be an involuntary participant in the external investment pool.

The calculation of realized gains is independent of the calculation of the net increase in the fair value of investments. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in the fair value of investments reported in the prior year. The change in fair value of investments was insignificant during the year ended June 30, 2019, and there was no significant unrealized gain or loss on investments held at June 30, 2019.

Restricted Cash, Cash Equivalents, and Investments

Certain restricted cash, cash equivalents, and investments are held by a fiscal agency for the future repayment of the Qualified Zone Academy Bonds (QZAB) which were issued for the purpose of providing monies to finance the modernization project at the District. Restricted cash and cash equivalents are combined with investments and displayed as restricted cash and investments.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Accounts Receivable and Due From Other Governments

Accounts receivable represent amounts due from private persons, firms, or corporations based on contractual agreements or amounts billed, but not received, as of June 30, 2019. Amounts due from other governments include entitlements and grants from federal, state, and local governments that the District has earned or been allocated, but has not received, as of June 30, 2019. At June 30, 2019, no allowance for doubtful accounts was deemed necessary.

Balances Due To/From Other Funds

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Balances due to/from other funds between funds within governmental activities are eliminated in the statement of net position.

Prepaid Expenses

Prepaid expenses consist of operating expenses for which payment is due in advance and which are expensed when the benefit is received.

Fixed Assets

The accounting treatment over property, plant, and equipment (fixed assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets are defined by the District as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. All fixed assets are valued at historical cost, or estimated historical cost if the actual cost is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation. Estimated historical cost was used to value the majority of the assets acquired prior to the implementation of GASB Statement No. 34.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives in years by type of asset is as follows:

Buildings and portable classrooms	20-30
Site improvements	5-30
Equipment	5-15

Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Advances From Grantors

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Advances from grantors are recorded to the extent that cash received on specific projects and programs exceeds qualified expenditures.

Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources, and payments of principal and interest are reported as expenditures.

Compensated Absences

The liability for earned but unused vacation leave is recorded as long-term debt for compensated absences in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), which will only be recognized as an outflow of resources (expense/expenditures) in the future. District contributions subsequent to the measurement date related to pension plans, are reported as deferred outflows of resources in the government-wide statement of net position. District contributions subsequent to the measurement date will be amortized during the next fiscal year.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and would only be recognized as an inflow of resources (revenue) at that time.

Changes in proportion and differences between the District's contributions and proportionate share of pension contributions, the District's proportionate share of the net difference between projected and actual earnings on pension plan investments, changes in assumptions, and the differences between the District's expected and actual experience, are reported as deferred inflows of resources or deferred outflows of resources in the government-wide statement of net position. These amounts are amortized over the estimated service lives of the pension plan participants.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Differences between projected and actual earnings on OPEB plan investments, changes in assumptions, and the differences between the District's expected and actual experience, are reported as deferred inflows of resources or deferred outflows of resources in the government-wide statement of net position. These amounts are amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided OPEB through the OPEB plan.

Equity Classifications

Government-Wide Statements Equity is classified as net position and displayed in three components:

Net Investment in Capital Assets: Consists of capital assets including restricted capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, leases, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position: Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, laws or regulations of other governments, or laws through constitutional provisions or enabling legislation.

Unrestricted Net Position: Consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Statements Governmental fund equity is classified as fund balance. Fund balance is further classified and displayed in five components:

Nonspendable Fund Balance: Consists of amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted Fund Balance: Consists of amounts that can be spent only for specific purposes because of constraints that are externally imposed by groups such as creditors, grantors, contributors, laws or regulations of other governments, or because of laws through constitutional provisions or enabling legislation.

Committed Fund Balance: Consists of amounts that can be used only for specific purposes determined by a formal action of the District's Board of Trustees. The District's Board of Trustees is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or budget adoption approved by the District's Board of Trustees.

Assigned Fund Balance: Consists of amounts that the District intends to use for specific purposes. Assignments may be established either by the District's Board of Trustees or a designee of the District's Board of Trustees.

Unassigned Fund Balance: Consists of the residual balance in the General Fund that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The District's minimum fund balance policy requires a reserve for economic uncertainties, consisting of unassigned amounts, equal to at least two months of General Fund operating expenditures, or 17% of General Fund expenditures and other financing uses.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District's Board of Trustees has provided otherwise in its commitment or assignment actions.

Revenue – Nonexchange Transactions

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Expenditures and Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

- Governmental funds – by character:
 - Current (further classified by function)
 - Debt service
 - Capital outlay

In the fund financial statements, governmental funds report expenditures of financial resources.

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

Pensions

Deferred outflows of resources/deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and California Public Employees' Retirement System (CalPERS), and additions to/deductions from STRP's and CalPERS's fiduciary net position have been determined on the same basis as they are reported by California State Teachers' Retirement System (CalSTRS) and CalPERS for purposes of measuring the net pension liability. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable with the benefit terms. Investments are reported at fair value.

Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers. For purposes of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

2. CASH AND INVESTMENTS

The following is a summary of cash and investments:

June 30, 2019	Maturities	Fair Value
Deposits (1)	\$	31,239
Investments That Are Not Securities (2)		
County treasurer's investment pool	14.3 months average	15,861,904
Total Cash and Investments		15,893,143
Less: Agency fund cash and investments		369,121
Total Cash and Investments Per Government-Wide Statement of Net Position	\$	15,524,022

- (1) **Deposits** The carrying amount of deposits includes checking accounts, savings accounts, nonnegotiable certificates of deposit, and money market accounts at financial institutions, if any.
- (2) **Investments That Are Not Securities** A "security" is a transferable financial instrument that evidences ownership or creditorship, whether in physical or book-entry form. Investments that are not securities do not have custodial credit risk because they do not involve a transferable financial instrument. Thus, they are not categorized into custodial credit risk categories.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Restricted Cash and Investments

The following is a summary of restricted cash and investments with fiscal agents:

June 30, 2019	Maturity Date	Fair Value
Investments That Are Not Securities (1)		
Guaranteed investment contract	12/22/2020 \$	969,888

(1) *Investments That Are Not Securities* A “security” is a transferable financial instrument that evidences ownership or creditorship, whether in physical or book-entry form. Restricted investments that are not securities do not have custodial credit risk because they do not involve a transferable financial instrument. Thus, they are not categorized into custodial credit risk categories.

Credit Risk – Investments

California Government Code, Section 53601, limits investments in commercial paper to “prime” quality of the highest ranking or of the highest letter and numerical rating as provided by nationally recognized statistical rating organizations (NRSRO), and limits investments in medium-term notes to a rating of A or better. The District has no investment policy that would further limit its investment choices. The District’s investment in the County investment pool is unrated.

Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; and level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2019:

- County treasurer's investment pool of \$15,861,904 is valued using quoted prices for similar instruments in active markets and quoted prices for identical or similar instruments in markets that are not active (level 2 inputs).
- Guaranteed investment contract of \$969,888 is valued at contract value. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the District (level 3 inputs).

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

Concentration of Credit Risk – Investments

California Government Code, Section 53635, places the following concentration limits on the County investment pool:

No more than 40% may be invested in eligible commercial paper; no more than 10% may be invested in the outstanding commercial paper of any single issuer; and no more than 10% of the outstanding commercial paper of any single issuer may be purchased.

California Government Code, Section 53601, places the following concentration limits on the District's investments:

No more than 5% may be invested in the securities of any one issuer, except the obligations of the U.S. government, U.S. government agencies, and U.S. government-sponsored enterprises; no more than 10% may be invested in any one mutual fund; no more than 25% may be invested in commercial paper; no more than 10% of the outstanding commercial paper of any single issuer may be purchased; no more than 30% may be invested in bankers' acceptances of any one commercial bank; no more than 30% may be invested in negotiable certificates of deposit; no more than 20% may be invested in reverse repurchase agreements; and no more than 30% may be invested in medium-term notes.

3. ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following:

June 30, 2019	General Fund		Adult Education Fund		Other Governmental Funds	
Interest	\$	129,381	\$	6,324	\$	11,779
Other		91,197		155,963		-
Total	\$	220,578	\$	162,287	\$	11,779

7. ACCOUNTS PAYABLE

Accounts payable consisted of the following:

June 30, 2019	General Fund	Adult Education Fund	Other Governmental Funds
Vendors	\$ 638,914	\$ 20,051	\$ 120,311
Salaries and benefits	722,301	70,347	-
Other	778	138	-
Total	\$ 1,361,993	\$ 90,536	\$ 120,311

8. BONDED DEBT

On December 1, 2005, the District issued Qualified Zone Academy Bonds (QZAB). The bonds required an initial cash contribution of \$697,865 to be deposited with a fiscal agent. Interest is payable annually on December 22. The current balance of deposits with the fiscal agent at June 30, 2019, is \$969,888. Principal will be paid on the maturity date of December 22, 2020. The bonds were issued for the purpose of providing monies to finance the modernization project at the CCOC. The outstanding QZAB balance is as follows:

Issue Date	Interest Rate	Maturity Date	Amount of Original Issue	Outstanding July 1, 2018	Redeemed Current Year	Outstanding June 30, 2019
2006	1.95%	2021	\$ 1,000,000	\$ 1,000,000	-	\$ 1,000,000

The amount of interest cost incurred during the year ended June 30, 2019, was \$19,500, all of which was charged to expenses.

The annual requirements to amortize the QZAB payable are as follows:

Year Ending June 30	Principal	Interest	Total
2020	\$ -	\$ 19,500	\$ 19,500
2021	1,000,000	19,500	1,019,500
Total	\$ 1,000,000	\$ 39,000	\$ 1,039,000

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

9. OPERATING LEASES

The District has entered into various operating leases for copiers with lease terms in excess of one year. None of these agreements contain purchase options. All agreements contain a termination clause providing for cancellation after a specified number of days' written notice to lessors, but it is unlikely that the District will cancel any of the agreements prior to the expiration date. Future minimum lease payments are as follows:

Year Ending June 30	Lease Payments	
2020	\$	26,508
2021		26,508
2022		26,508
2023		26,508
2024		15,463
Total	\$	121,495

The District will receive no sublease rental revenues nor pay for any contingent rentals for this equipment. Rent expenditures were \$46,919 for the year ended June 30, 2019.

10. CHANGES IN LONG-TERM DEBT

The following is a summary of changes in long-term debt:

Year Ended June 30, 2019	Beginning Balance	Additions	Deductions	Ending Balance	Amounts Due Within One Year
Governmental Activities					
Compensated absences	\$ 205,345	\$ -	\$ 66,288	\$ 139,057	\$ -

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

12. JOINT POWERS AUTHORITIES

The District participates in joint ventures under joint powers agreements with the following joint powers authorities (JPAs): Santa Clara County Schools Insurance Group (SCCSIG), South Bay Area Schools Insurance Authority (SBASIA), and CSAC Excess Insurance Authority (EIA). The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs arrange for and provide property, liability, workers' compensation, and excess liability coverage for their members. Each JPA is governed by a board consisting of representatives from the members. The boards control the operations of the JPAs, including selection of management and approval of operating budgets, independent of any influence by the members beyond their representation on the boards. Each member pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to its participation in the JPA. The District's share of year-end assets, liabilities, or fund equity is not calculated by the JPAs. Separately issued financial statements can be requested from each JPA.

13. COMMITMENTS AND CONTINGENCIES

Federal and State Allowances, Awards, and Grants

The District received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under the terms of the grants, it is believed that any required reimbursements will not be material.

14. CONSTRUCTION PROJECT COMMITMENTS

Construction project commitments are as follows:

June 30, 2019	Remaining Construction Commitment
Switchgear replacement	\$ 126,695

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

15. RISK MANAGEMENT

The District is exposed to various risks, including loss or damage to property, general liability, and injuries to employees. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years. No significant reductions in insurance coverage from the prior year have been made. As described above, the District participates in risk pools under joint powers agreements for property, liability, workers' compensation, and excess liability coverage.

16. EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under cost-sharing multiple-employer defined benefit pension plans maintained by agencies of the state of California. Certificated employees are members of CalSTRS, and classified employees are members of CalPERS.

Summary

Net pension liability, deferred outflows or resources, deferred inflows of resources, and pension expense are reported as follows:

June 30, 2019	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
CalSTRS State Teachers' Retirement Plan	\$ 7,352,560	\$ 1,842,967	\$ 1,639,918	\$ 827,273
CalPERS School Employer Pool	6,257,841	2,171,152	474,533	951,197
Total	\$ 13,610,401	\$ 4,014,119	\$ 2,114,451	\$ 1,778,470

Net pension liability, deferred outflows of resources, and deferred inflows of resources are reported in the accompanying statement of net position; pension expense is reported in the accompanying statement of activities.

California State Teachers' Retirement System

Plan Description Certificated employees of the District participate in STRP, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. Benefit provisions are established by state statute, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues publicly available financial reports that can be obtained at www.calstrs.com.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Benefits Provided STRP provides retirement, disability, and survivor benefits to beneficiaries. The defined benefit program provides retirement benefits based on members' final compensation, age, and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. The program has two benefit formulas:

- **CalSTRS 2% at 60** CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0% of final compensation multiplied by the number of years of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to a maximum of 2.4% at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2% to the age factor, up to the 2.4% maximum.
- **CalSTRS 2% at 62** CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0% of final compensation multiplied by the number of years of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4% at age 65 or older.

Contributions Required member, employer, and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Active plan members of the CalSTRS 2% at 60 formula are required to contribute 10.25% of their salary. Active plan members of the CalSTRS 2% at 62 formula are required to contribute 10.205% of their salary. The required employer contribution rate for fiscal year 2018-19 was 16.28% of annual payroll. The District's contributions to CalSTRS for the fiscal year ended June 30, 2019, were \$677,996.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions At June 30, 2019, the District reported a net pension liability for its proportionate share of the net pension liability that reflected a reduction for state pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District, were as follows:

June 30, 2019

District's proportionate share of the net pension liability	\$ 7,352,560
State's proportionate share of the net pension liability associated with the District	4,209,705
Total	\$ 11,562,265

The District's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2019, the District's proportion was 0.008%.

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

State Teachers' Retirement Law also requires the state to contribute 9.828% of the members' creditable earnings from the fiscal year ending in the prior calendar year. *California Education Code*, Section 22950.6 appropriates an additional \$2,246,000,000 from the state's General Fund for the 2018–19 fiscal year to be transferred to the Teachers' Retirement Fund. For the year ended June 30, 2019, the District recognized pension expense of \$143,550 and revenue of \$143,550 for support provided by the state. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 22,800	\$ 106,699
Net difference between projected and actual earnings on pension plan investments	-	283,094
Change in assumptions	1,142,171	-
Changes in proportion and differences between District contributions and proportionate share of contributions	-	1,250,125
District contributions subsequent to the measurement date	677,996	-
Total	\$ 1,842,967	\$ 1,639,918

The \$677,996 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2020	\$ 21,020
2021	(85,040)
2022	(277,975)
2023	(87,921)
2024	93,982
Thereafter	(139,013)
Total	\$ (474,947)

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Actuarial Assumptions The total pension liability in the June 30, 2017, actuarial valuation for CalSTRS was determined using the following actuarial assumptions and applied to all periods included in the measurement:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Investment rate of return	7.10%
Interest on accounts	3.00%
Wage growth	3.50%
Consumer price inflation	2.75%
Post-retirement benefit increases	2.00% simple

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table issued by the Society of Actuaries.

The actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2010, through June 30, 2015.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS' general investment consultant (Pension Consulting Alliance-PCA) as inputs to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2018, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	47%	6.30%
Private equity	13%	9.30%
Real estate	13%	5.20%
Inflation sensitive	4%	3.80%
Fixed income	12%	0.30%
Risk mitigating strategies	9%	2.90%
Cash/liquidity	2%	-1.00%
Total	100%	

Discount Rate The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers were made at statutory contribution rates in accordance with the rate increases pursuant to Chapter 47, Statutes of 2014 (AB 1469). Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assumes that contributions, benefit payments, and administrative expenses occurred midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10%, as well as the District's proportionate share of the net pension liability if it was calculated using a discount rate that is one percentage point lower (6.10%) or one percentage point higher (8.10%) than the current rate:

June 30, 2019	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
District's proportionate share of the net pension liability	\$ 10,770,640	\$ 7,352,560	\$ 4,518,640

Pension Plan Fiduciary Net Position Detailed information about the pension plan's fiduciary net position is available in CalSTRS' separately issued *Comprehensive Annual Financial Report* (CAFR).

California Public Employees' Retirement System

Plan Description Classified employees of the District participate in the School Employer Pool (the Plan) under CalPERS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by state statute, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a publicly available financial report that can be obtained at www.calpers.ca.gov.

Benefits Provided The plan provides retirement, disability, and death benefits to plan members and beneficiaries. The benefits are based on members' years of service, age, final compensation, and benefit formula. Members become fully vested in their retirement benefits earned to date after five years of credited service.

Contributions Member contribution rates are defined by law. Employer contribution rates are determined by periodic actuarial valuations. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. Active plan members that met the definition of a new member under the Public Employees' Pension Reform Act are required to contribute 7.00% of their salary. Classic employees are required to contribute 7.00% of their salary. The required employer contribution rate for the 2018-19 fiscal year was 18.062%. The District's contributions to CalPERS for the fiscal year ended June 30, 2019, were \$633,495.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions At June 30, 2019, the District reported a net pension liability of \$6,257,841 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, rolled forward to June 30, 2018, using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2019, the District's proportion was .02347%.

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

For the year ended June 30, 2019, the District recognized pension expense of \$951,197. *California Government Code*, Section 20825.2 appropriates \$904,000,000 from the state's General Fund for fiscal year 2018–19 to be transferred to the Public Employees' Retirement Fund, for payments relating to school employers' contributions and unfunded liabilities. No amounts are recognized at the government-wide level for the year ended June 30, 2019, as the government-wide financial statements are reported based on the June 30, 2018 measurement date. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 410,241	\$ -
Net difference between projected and actual earnings on pension plan investments	51,328	-
Change in assumptions	624,818	-
Changes in proportion and differences between District contributions and proportionate share of contributions	451,270	474,533
District contributions subsequent to the measurement date	633,495	-
Total	\$ 2,171,152	\$ 474,533

The \$633,495 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30	
2020	\$ 630,316
2021	554,090
2022	(84,345)
2023	(36,937)
Total	\$ 1,063,124

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

Actuarial Assumptions The total pension liability in the June 30, 2017, actuarial valuation for CalPERS was determined using the following actuarial assumptions applied to all periods included in the measurement:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Discount rate	7.15%
Inflation	2.50%
Salary increases	Varies by entry age and service
Investment rate of return	7.50%

Post-retirement mortality rates are based on CalPERS' experience and include 15 years of projected ongoing mortality improvement using 90% of Scale MP 2016 published by the Society of Actuaries. These tables are used to estimate the value of benefits expected to be paid for service and disability retirements. For disability retirements, impaired longevity is recognized by a separate table.

The actuarial assumptions used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 1997, through June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

The tables below reflect long-term expected real rates of return by asset class. The rates of return were calculated using the capital market assumptions applied to determine the discount rate.

Asset Class	Assumed Asset Allocation	Real Rate of Return	
		Years 1 - 10	Years 11+
Global equity	50%	4.80%	5.98%
Fixed income	28%	1.00%	2.62%
Inflation assets	0%	0.77%	1.81%
Private equity	8%	6.30%	7.23%
Real estate	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%
Total	100%		

Discount Rate The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.15%, as well as the District’s proportionate share of the net pension liability if it was calculated using a discount rate that is one percentage point lower (6.15%) or one percentage point higher (8.15%) than the current rate:

June 30, 2019	1% Decrease (6.15%)	Current Discount Rate (7.15%)	1% Increase (8.15%)
District's proportionate share of the net pension liability	\$ 9,111,117	\$ 6,257,841	\$ 3,890,640

Pension Plan Fiduciary Net Position Detailed information about the pension plan’s fiduciary net position is available in CalPERS’ separately issued CAFR.

17. EARLY RETIREMENT INCENTIVE PROGRAM

The District did not enter into any early retirement incentive agreements during 2018-19, pursuant to *California Education Code*, Sections 22714 and 44929, whereby the service credit to eligible employees is increased by two years.

18. POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

Plan Description and Benefits Provided

The District provides postemployment health care benefits to qualifying employees through a single-employer defined benefit health care plan administered by the District. The District provides postemployment health care benefits to all certificated and classified employees and their dependents who retire from the District on or after attaining the age of 55 with at least ten years of service in the District. The District contributes \$80 per month to retirees until they reach age 65, at which time the District contributes \$35 per month. No assets are accumulated in trust that meets the criteria in paragraph 4 of Statement 75.

Employees Covered

Employees covered by the benefit terms of the plan consisted of:

June 30, 2019

Inactive plan members or beneficiaries currently receiving benefit payments	54
Active plan members	94
Total	148

Contributions

The District's agreement with employees is for monthly contributions for members who meet the eligibility criteria of their collective bargaining agreement and who retire during the term of the contract. The contribution requirements of plan members and the District are established and may be amended by the District's Board of Trustees. Currently, the District's policy is to contribute to the plan on a pay-as-you-go basis. For the fiscal year ended June 30, 2019, the District contributed \$60,525 representing premium payments on behalf of retired employees.

Total OPEB Liability

The District's total OPEB liability for the plan is measured as the total OPEB liability, less the plan's fiduciary net position. The total OPEB liability of the plan is measured as of June 30, 2018, using an annual actuarial valuation as of June 30, 2018. The June 30, 2019, total OPEB liability was based on the actuarial methods and assumptions as shown below.

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2018, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	June 30, 2018
Measurement date	June 30, 2018
Actuarial cost method	Entry age normal
Actuarial assumptions:	
Salary increases	3.00%
Discount rate	3.62%
Healthcare cost trend rate	5.00%

Mortality is based on the RP-2000 Combined Mortality Table, projected to future years with Scale AA.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.62%. The discount rate is based on the value of the Fidelity General Obligation AA index at June 30, 2018.

Changes in the Total OPEB Liability

The changes in the total OPEB liability for the plan are as follows:

Year Ended June 30, 2019	
Total OPEB Liability	
Service cost	\$ 164,182
Interest	105,353
Difference between expected and actual experience	144,266
Changes of assumptions	(28,475)
Benefit payments - including refunds of employee contributions	(60,525)
Net Change in Total OPEB Liability	324,801
Total OPEB Liability - Beginning of Year	2,989,624
Total OPEB Liability - End of Year	\$ 3,314,425
Covered-employee payroll	\$ 12,479,080
District's total OPEB liability as a percentage of covered-employee payroll	26.56%

Metropolitan Education District
NOTES TO THE FINANCIAL STATEMENTS
(Continued)

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the District's total OPEB liability calculated using the discount rate of 3.62%, as well as the District's total OPEB liability if it was calculated using a discount rate that is one percentage point lower (2.62%) or one percentage point higher (4.62%) than the current rate:

June 30, 2019	1% Decrease (2.62%)	Current Discount Rate (3.62%)	1% Increase (4.62%)
Total OPEB liability	\$ 3,841,096	\$ 3,314,425	\$ 2,892,705

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the District's total OPEB liability calculated using the healthcare cost trend rate of 5.00%, as well as the District's total OPEB liability if it was calculated using a healthcare trend rate that is one percentage point lower (4.00%) or one percentage point higher (6.00%) than the current rate:

June 30, 2019	1% Decrease (4.00%)	Health Cost Trend Rates (5.00%)	1% Increase (6.00%)
Total OPEB liability	\$ 2,894,532	\$ 3,314,425	\$ 3,863,046

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$149,370. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 127,872	\$ -
Change in assumptions	-	288,152
District contributions subsequent to the measurement date	33,006	-
Total	\$ 160,878	\$ 288,152

Metropolitan Education District
 NOTES TO THE FINANCIAL STATEMENTS
 (Continued)

The \$33,006 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred inflows and deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30	
2020	\$ (26,083)
2021	(26,083)
2022	(26,083)
2023	(26,083)
2024	(26,083)
Thereafter	(29,865)
Total	\$ (160,280)

19. SUPPLEMENTAL EMPLOYEE RETIREMENT PLAN

In addition to the retirement plans maintained by CalSTRS and CalPERS, the District provides an early retirement incentive. This Supplemental Employee Retirement Plan (SERP) is a fixed annuity product designed to be qualified under 403(b) of the Internal Revenue Service Code. Eligibility is restricted to employees who were employed by the District as of March 12, 2014, and who notified the District of their intent to retire if retirement occurred by June 30, 2014; and, for certificated employees who were age 55 or older with ten years of service with the District; or, certificated employees who were age 50 or older with 30 years of service with the District; or, classified employees who were 50 or older with ten years of service with the District. For certificated and classified employees retiring as of June 30, 2014, the District will contribute 5.5% of all premiums made by the District on behalf of participants in the plan, subject to a minimum of \$3,500 per year for five years.

The District funds this program over a period of five years for each eligible retiree. The District's payment for the years ended June 30, 2019, 2018, and 2017, were \$228,334, \$228,334 and \$228,335, respectively, for employees who elected early retirement under this plan. As of June 30, 2019, the SERP liability has been paid in full. Expenditures are recognized in the governmental funds when payments are made. Expenses are recognized in the government-wide financial statements in the year of retirement.

20. FUTURE GASB IMPLEMENTATION

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. This statement provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. It establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. The District's management has not yet determined the impact that the implementation of this standard, which is required on July 1, 2019, will have on the District's financial statements, if any.

In June 2017, GASB issued Statement No. 87, *Leases*. This statement improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and as inflows of resources or outflows of resources recognized based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The District's management has not yet determined the impact that the implementation of this standard, which is required on July 1, 2020, will have on the District's financial statements, if any.

Metropolitan Education District
NOTES TO THE BUDGETARY COMPARISON SCHEDULES

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's Governing Board annually adopts budgets for the General Fund and each major special revenue fund of the District. All budgets are presented on the modified accrual basis of accounting. Accordingly, the accompanying budgetary comparison schedule of the General Fund and the special revenue funds present actual expenditures in accordance with the accounting principles generally accepted in the United States of America on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Expenditures exceeded appropriations by the following amounts:

June 30, 2019		Adult Education Fund
Classified salaries	\$	(36,779)
Employee benefits	\$	(27,942)
Other outgo	\$	(163,574)

These excess expenditures were offset by unexpended appropriations in other categories.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

1. SCHEDULE OF CHANGES IN DISTRICT'S TOTAL OPEB LIABILITY AND RELATED RATIOS

Changes in Benefit Terms

There were no significant changes in benefit terms during the measurement period ended June 30, 2018.

Changes in Assumptions

For the measurement period ended June 30, 2018, the discount rate changed from 2.92% to 3.62% due to changes in the Fidelity General Obligation AA index. There were no other changes in major assumptions during the measurement period.

Assets to Pay Related Benefits

There are no assets accumulated in a trust that meets the criteria in paragraph 4 of Statement 75 as of June 30, 2019.

2. CHANGES OF BENEFIT TERMS

California State Teachers' Retirement System

There were no significant changes of benefit terms during the measurement period ended June 30, 2018.

California Public Employees' Retirement System

There were no significant changes of benefit terms during the measurement period ended June 30, 2018.

3. CHANGES OF ASSUMPTIONS

California State Teachers' Retirement System

There were no significant changes of assumptions during the measurement period ended June 30, 2018.

California Public Employees' Retirement System

In December 2017, the CalPERS Board adopted new mortality assumptions. The new mortality table was developed from the December 2017 experience study and includes 15 years of projected on-going mortality improvement using 90% of scale MP 2016 published by the Society of Actuaries. The inflation assumption is reduced from 2.75% to 2.50%. The assumptions for individual salary increases and overall payroll growth are reduced from 3.00% to 2.75%.

OTHER SUPPLEMENTARY INFORMATION SECTION

Metropolitan Education District

LOCAL EDUCATIONAL AGENCY ORGANIZATION STRUCTURE

June 30, 2019

The Metropolitan Education District (the District) is located in Santa Clara County and operates two programs: a high school program (SVCTE), established in 1917; and an adult education program (SVAE), established in 1883. There were no changes in the boundaries of the District during the current year.

Average daily attendance at P-2	N/A	N/A	N/A	N/A

The General Fund balance has increased by \$3,217,897 over the past two years. The fiscal year 2019-20 budget projects a decrease of \$205,360 (1.9%). For a district this size, the state recommends available reserves of at least 3% of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred an operating deficit in two of the past three years, and anticipates incurring an operating deficit during the 2019-20 fiscal year. Total long-term debt has increased by \$1,349,619 over the past two years.

NOTE TO THE OTHER SUPPLEMENTARY INFORMATION

PURPOSE OF SCHEDULES

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current-year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Reconciliation of Annual Financial and Budget Report With Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of each fund, as reported in the annual financial and budget report, to the audited financial statements.

OTHER REPORTS SECTION

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Metropolitan Education District
San Jose, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Metropolitan Education District (the District) as of and for the year ended June 30, 2019; and the related notes to the financial statements, which collectively comprise the District's basic financial statements; and have issued our report thereon dated December 6, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions to prevent, or detect, and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

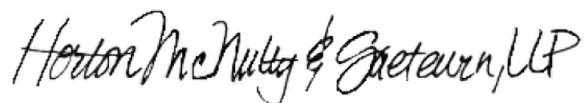

(Continued)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON STATE COMPLIANCE

To the Board of Trustees
Metropolitan Education District
San Jose, California

Compliance

We have audited the Metropolitan Education District's (the District) compliance with the types of state compliance requirements described in the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, for the year ended June 30, 2019. The applicable state compliance requirements are identified in the table below.

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the District's management.

Auditors' Responsibility

Our responsibility is to express an opinion on the District's compliance with the state laws and regulations based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards and the *2018-19 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on compliance with the state laws and regulations described in the schedule below occurred. An audit includes examining, on a test basis, evidence supporting the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.
